HINT: When you receive your Fearless Ink Pad, use a black felt pen to write its name on the bottom of the case. This will be a great help when you need to order a refill. Also, with a little creative planning you can mix our refill inks on your pad to create your own colors! Orange or red ink on a yellow pad, etc. However, remember your art classes when you mix colors on a pad. Many color combinations will make brown, so it's best to stick with colors that are close to each other on the color wheel!

SC899 Stamp Cleaner 2 oz. Plastic Bottle \$3.25 each

Can be used with all of our inks. Just stamp off the excess ink from your stamp, & then put a few drops of cleaner on a paper towel to wipe off the remaining ink.

PBSB Planning Book Stamp Storage Box \$2.00 each
